

# SIPP Investment List

## INTRODUCTION

Our SIPP clients have a wide range of investment options. However, as a responsible SIPP operator, we have placed restrictions on what your SIPP can and cannot invest in.

Our Permitted and Non-Permitted Investments Lists below set out generally what is allowable. The lists are principally determined by:

- **Taxable property** these are a category of investment that would incur high tax penalties if held in your SIPP, and
- **Non-Standard Investments** these are investments, which do not fall within the Financial Conduct Authority's (FCA's) definition of "standard investments", as they may be difficult to sell, be higher risk and are often inappropriate for SIPPs.

The term non-standard investment does not reflect the potential investment risk or reward, both a non-standard investment and a standard investment (on our permitted investment list) may be a high risk investment.

One of the criteria for an investment to be considered a standard investment is whether it can be realised (sold) within 30 days when required. If an asset cannot be sold within 30 days it is classified as a non-standard investment.

If you are considering an investment which is not covered below then please send us full details so that we can determine whether it is viable. Please note that there will be a charge for us completing any due diligence. We will confirm the charge to you before carrying out any work.

We reserve the right to sell any investment held in a SIPP at our sole discretion if we believe that continuing to hold it could jeopardise the registration of the SIPP or lead to a tax charge.

Please note that DP Pensions Ltd and D A Phillips & Co Ltd (the SIPP Trustee) do not give financial advice. You make all investment decisions with the help of your financial adviser (if you have one). We do not take any responsibility for the consequences of your investment decisions.

You should regularly review your investments to make sure that they meet your investment objectives, your retirement aims and your attitude to risk.
